REPAIRS OF BICYCLES

A LOCAL EXPERT'S SUGGESTIONS FOR EMERGENCY CASES.

Makeshifts for Broken Parts-A Doctor, Who Doesn't Like Cycle Riders, Fined.

Harry McKee, a local expert machinist and bicycle repairer, gives some valuable suggestions on emergency repairing. He is a rider who has made many long trips over the country and had had occasion to exercise his ingenuity on many occasions to save a long walk. Breakages of all kinds are likely to occur on the road, far away from repair shops, and then it is worth time and labor to be able to remedy the damage so the machine can be ridden. Many breaks which to the uninitiated look as if they could not possibly be repaired outside a shop can be temporarily remedied so that the rider can manage to keep going until he comes to a place where

the iil can be permanently cured. The first suggestion made is regarding the repair of a tire which may burst. If | tional Council of Women. side tires burst there is no necessity for patching any but the inner tube. This is done in the regular way. done in the regular way. Then it should be replaced and the tire fitted on the rim and blown up to about half riding pressure. Then wrap the tire all around with tire tape. This will not only prevent the inner tube from protruding at the place where the casing is burst, but it will also hold the

tire on the rim. It is important that the rider intending to make a trip shall go prepared for emergency repairs. It is not necessary that he The bride was unattended except for two terials, but he should see that he has a good wrench, screwdriver, a small file, pocket knife, plenty of oil, a roll of tire tape, a piece of copper wire, a piece of twine and a full tire-repair kit for what-

ever style of tire he has. A broken chain is generally looked upon as a calamity which cannot be repaired. Very often when a link breaks it can be taken out and the chain shortened. This, however, is a job that cannot be performed by everybody. But anybody can take the old link out and bend a piece of wire married at the residence of the bride's through the rivet holes, forming a square nection between the two ends of the chain about the length of the missing link, in the evening at the Lagonda clubhouse, for a chain link until a repair shop is

A little ingenuity and a few small articles, such as mentioned above, will prove of great benefit to any rider who is starting out on the road. When the wheel is so badly wrecked that it is impossible to get Jesse A. Mitchell and wife celebrated the it in shape to be ridden the best thing to do is to send for the bicycle amoulance.

Last Week for Wheel Licenses. While bicycle riders have been pretty prompt this year in taking out their licenses, there are many who have not yet complied with the law. They are easily detected, as in most cases last year's tag is left attached to the frame, generally in a conspicuous place. Some riders fancy that the police will take it for granted they have renewed their licenses when the tags are seen, but this idea is delusive, as the new tags are of an entirely different shape, and the difference is easily detected. After this week bicycle riders who have not taken out 1897 licenses will be arrested. Yesterday a young man who had dis-mounted from his wheel and left it standing at the curb returned a few moments

dered to notify people this week to take out their licenses. After they have had notice this week we will have to arrest them." The young man was relieved to find he was not to be arrested, and at once hastened to Controller Johnson's office for a

new tag. Dr. Guido Bell Fined. Dr. Guido Bell was fined in Police Court yesterday on complaint of a party of wheelmen, who testified that the physician had assaulted one of their number. While driving Wednesday afternoon Dr. Bell ran into a party of cyclers and it was charged that he struck at one young man with his whip. The doctor denied this, but was assessed a fine of \$1 and costs.

Bicycle Notes. Henry Engelken will start in the Me-morial day road race.

There were a number of out-of-town blcycle purchasers in the city yesterday. Raymond and Snyder, of the Conde team, will work out Sunday on the Broad Ripple track.

The H. T. Conde Company will have a team of Class A riders in the field in a F. Ellis Hunter will make a century run Sunday. He has not decided in which direction he will go.

It is understood that a movement has been started among wheel riders for the organization of a cycle track association. The Bellis Company has offered a bicycle to the member of the Indianapolis baseball team who shall make the most runs during

C. G. Fisher's twelve-foot "giraffe" has been sold to a Muncie firm, and will probably not be seen on the streets of Indianapolis again. L. H. McIntosh, Miss Ida Pearson and Mr. and Mrs. Will Dodds will ride to Millersville for supper Sunday. They will

all carry lanterns on their wheels, The new rider who confesses that he does not know all about everything relating to a bicycle is the one whom an old rider is most apt to assist in time of trouble. The Zig-zag Club will make an effort to secure the L. A. W. State meet, which is held annually in different cities. It is generally given to the city which shows the largest increase in league membership. Jesse Pierce, W. G. Ribble, Frank Kregs, Lawrence Hill, H. J. Zimmerla, William Colwell and John Rotach are some of the bicycle. It was an Arrow, and was taken in exchange for a new one by the H. T. third baseman's head, and the umpire or-

Grand Rapids7 THE UMPIRE'S SCORE.

Was 9 to 0 in Favor of the Hoos-

The Detroits preferred to forfeit a game yesterday rather than lose it in the good, old-fashioned way, and the umpire accommodated them. It was a short-sighted move for them to make, as it hurts the game and cannot benefit them unless interests hostile to Indianapolis should prevail upon the league to order the game played over. That is a remote possibility, for the umpire was clearly within his rights and was simply following the rules. It was Indianapolis's game right from the

start, and the other fellows were never in it. They knew they were snowed under and began delaying matters in the third inning in the hope that rain might save them men who are training for the Memorial before the end of the fifth. Ebright warned day road race. They will ride Outings. them several times, and finally, in the first Rev. E. A. Allen was riding along North Meridian street yesterday. His wheel slipped and fell under an ice wagon and favor of Indianapolis, Trost, without the was crushed out of all resemblance to a shadow of an excuse, threw the ball over dered him from the game. Then Allen and his men wrangled for several minutes and cutter which he considerately left standing at the curb. He wanted to buy a Bellis name plate, but did not get it. He afterward explained that he wanted to put it on his muchine. He argued that it wanted to put it ing the rejuctant Detroiters no alternative. The latter came in as slowly as possible for their half inning, which was the only thing necessary to make it a game. It was Ellis's turn at bat, he having taken Trost's place. He took considerably more time than was necessary to get his bat, and while he was looking them over, Ebright, who had given Allen ample warning and who was holding a watch on Ellis, declared the game forfeited 9 to 0 in favor of In-

During the fourth inning Burnett caught a five-dollar fine for delay in coming to bat. coupled with some back talk to the umpire. The Detroit players piled into their 'bus and were jeered as they rode away. There were a thousand or twelve hundred people at the game and they were indignant at | the visiting team for its unwarranted action. The rain did not arrive until after 5 o'clock, nearly an hour after the game had been forfeited. The sort of thing indulged in yesterday by Detroit, the fans think should be sat down upon good and hard by the league. Umpire Ebright did his part toward putting an end to it. Indianapolis went right after "Rip" Egan in the first inning, when, with one out, Flynn hit to right center for a home forced him at second. Stewart got a single to left and Burnett let the ball get past

Egan hit Gray with the ball and Motz him, Motz coming in. Eustace hit to right center for three bases, scoring Stewart. Kahoe went out from pitcher to first. Detroit's only run was scored in the last half on Knoll's base on balls and Hines's three-base hit to right center. After that Goar had them going about as fast as they came to bat. Flynn started the third inning with a hit to left. Gray gave Burnett a hard chase for a fly, but he got it. Motz drove one on a line to right which Dungan tried to scoop, but the ball went through him for a home run. Stewart flew to left and Eustace went out from short to first. In the fifth, with one out, Gray hit to center for a base, stole second aided by catcher's low throw, which was purposely made. Motz struck out intentionally, but Hines went him one better by dropping the ball. Motz ambled so slowly to first that Hines threw him out. Gray went to thind, mean-while, and scored on a wild pitch. Stewart poked a little one at Egan, who reluctantly

tossed the ball to Whistler, and the side Had Detroit shown any disposition to would have been well and in a few modecribed above. Score:

its percentage is .800. The Indianapolis team will be away until May 13, when it comes home for three games with Columbus before making the long Western trip. McCarthy and McFarland were the only players left at home this trip, and the former hopes to join the team at Grand Rapids next Wednesday.

The Indianapolis and Detroit teams left for Detroit last evening, and the season on Vanderbeck's grounds will open this afternoon. The game will be watched, play by play, at the Grand Opera House here, where it will be reproduced by the electrical device which aroused so much interest last season. The big machine was put in position at the Grand yesterday, and the stage now looks like a ball field. To-morrow's game will also be played at the Grand. Next week's Detroit games and the first with Grand Rapids will be played at English's, the machine being transferred to | Boston that house for a few days until the Grand's season closes, which will be next Wednesday night. After that the ball games will be played regularly at the Grand. Ladies will be admitted free to-day.

Much has been said and written about the inconveniences and inadequacy of the Executive Mansion, and many plans have been proposed to remedy its real or imaginary defects. Some have proposed to aban-den the house as a place of residence, to give it wholly over to official uses, and to build a new home for the President; others suggest to make the house strictly and solely a place of residence, by removing the offices to a suitable new building. It would be a great shame. I think, to divert this stately and historic house to another and meaner use than that to which it was set apart when Washington laid its cornerstone. With the offices out of it, some better provision for the accommodation of the domestics, and another large room, with a suitable exit, to relieve the overcrowded receptions, the house would be adequate and altogether creditable.

AMUSEMENTS.

Manager Zimmerman's Benefit. Arrangements are now complete for the benefit to be tendered Manager Charles Zimmerman at the Empire Monday night, and there can be no doubt but what that popular house will be crowded, judging from the demand for seats. The programme will be rather lengthy, consisting of a first part, an olio and closing with a hypnotic exhibition by Dr. Callan. The list includes among the many the National Quartet, the Three Nonparells, Barton Okey, Ballard and Evans, John Collier, Jenkins and Pontius, the Big Four Quartet, Grace Butterworth, Sowders and Temple and others. Seats are now on sale at the box office.

Terre Haute's New Theater.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., April 29.-Since the destruction of the Naylor Opera House, last spring, there has been a continued effort on the part of some of the stockholders of the Terre Haute House to build a theater on the lot adjoining the hotel, and which is owned by the hotel company. Mr. Ijams telegraphs that he has been successful, and to call a meeting of the directors for to-morrow night. purpose of the company is to bond the company's property for \$150,000, including the theater, and with this money take up \$65,000 outstanding debt, using the remainder for the theater and office building. This evening J. B. Dickson makes the announcement that as Landlord Baur, of the hotel, gives assurance that the company has arranged to provide the public with a theater, and in order that the hotel comsuccess, the Dicksons will withdraw from the field so far as the building of a theater is concerned, But will bid for the management of the house. If they do not secure the house they will retire from Terre Haute. J. B. Dickson will remain here this summer, in any event, to manage the Harrison Park Casino.

A PEOPLE OF FEW WORDS

"Let your speech be yea, yea, and, nay, nay." says the Good Book, "for whosoever is more than these cometh of evil." The Shakers abide by the apirit of this rule, they use it in thinking and doing. And is another man's poison. That is but half the truth. Any man's meat is any man's poison, under certain conditions. If the grain never got further than the hopper we should never have bread; and if bread never got further than the stomach we should never have strength. When the stomach is torpid, helpless and inflamed the food lies in it and rots. This fermentation produces poisons which may, and often do, disorder every other organ and function of the body. This is indigestion or dyspepsia, with many symptoms and disguises. Cure it and you cure ninetenths of your complaints." These words were uttered many years ago. Since then they have found a remedy, now known as the Shaker Digestive Cordial. It is made from medicinal plants cultivated by them, It is a food and digests other foods. Taken while eating it rests the stomach and nourishes the system. The pain and distresses of dyspepsia disappear before it. It prevents fermentation and soon restores full power to the digestion. It succeeds in the worst cases. It is worthy the name of the people whose name it bears. Any drug-gist will sell you a trial bottle for ten cents,

The Blackballing of the Governor.

To the Editor of the Indianapolis Journal: To some of those who have been thinking the Journal a very nearly ideal newspaper you have just now given a double surprise; one in leaving them to learn through "the outside press"-Chicago and others-of a very interesting home event; the other in adjudging that event of not sufficient consequence to your readers to merit mention. It hardly meets the requirements of the case to fillip the society that blackballed the Governor for so irrational a cause assigned-dishonestly assigned, we cannot doubt-something more seems, requisite than for you to fillip it aside as a "so-called literary club." The club, more than any other one society, stands for the literary spirit of Indianapolis, and therefore in making itself ridiculous makes Indianapolis in a measure ridiculous as well, and even Indiana. The club should justify its action now that it has incited such wide. spread comment. On failing that, it should discover its blackballing members and in-duce them to cease their divings into the sea of literature which cannot reach them to appreciate such a man as our Governor -and climb instead to the highest attainable altitude and plunge thence head down to solid ground; on still failing, the selfrespecting symmetrical men who are members should forthwith withdraw and leave the club to the exclusive little asses,
